DOCTOR'S APPROVAL TO SELF-ADMINISTER INHALERS

Please allow _____ to self-administer his/her inhaler. _____ has asthma and understands how to use the inhaler, since she/he's been self-administering the inhaler for some time.

In the past, nurses kept the inhalers in their office, but the law has changed since Governor Ryan signed SB979 into law amending the School Code to require a school to permit the student to self-administer.
